Goals:

- build a strong network of TOPtoTOP Ambassadors to protect
- explore innovative climate solutions
- produce inspiring documentary film and presentations of good hopes

Concept for the TOPtoTOP Award Expedition:

Each person nominated works together in a team and takes part in the tour. Like on the real TOPtoTOP Global Climate Expedition, we climb, cycle and sail to the many unique sites. On the tour we will collect the most exciting examples and efforts to protect the climate and study the impacts of global warming during our adventure.

Each team does reports on www.expedition.toptotop.org linked to Facebook and produce a PowerPoint presentation and Press Release about their journey. Participants doing best get the TOPtoTOP Climate Solution Award.

Together we do a documentary to summarize the findings and results. Like this we create a tool to give presentations about the most innovative solutions to protect our climate back home.
